

Public Notice
Proposed Issuance of a Construction Permit to
Bunge Foods Corporation in Bradley

Bunge Foods Corporation has applied to the Illinois Environmental Protection Agency (Illinois EPA) for a construction permit to allow the overhaul of a gas turbine that generates electricity for the facility located at 855 North Kinzie in Bradley. The project requires a permit because the turbine is a source of air emissions. Emissions from the project will not exceed major modification levels and therefore the project is not subject to the federal Prevention of Significant Deterioration (PSD) rules, 40 CFR 52.21. The Illinois EPA is accepting comments prior to making a final decision on this project.

Persons wanting more information may obtain copies of the draft permit, and project summary at www.epa.gov/region5/air/permits/ilonline.htm (please look under All Permit Records, State Construction Permit, New). These documents and the application can also be obtained from the Illinois EPA's offices at 9511 West Harrison in Des Plaines, 847/294-4000 and 1340 North Ninth St., Springfield, 217/782-7027 (please call ahead to assure that someone will be available to assist you). Copies of the documents will be made available upon request.

The Illinois EPA is accepting comments prior to making a final decision on this project. Comments must be postmarked by midnight May 17, 2003. If sufficient interest is expressed in the permit, a hearing may be held. Requests for information, comments, and questions should be directed to Brad Frost, Division of Air Pollution Control, Illinois Environmental Protection Agency, PO. Box 19506, Springfield, Illinois 62794-9506, phone 217/782-2113, TDD phone number 217/782-9143.
